

Introduction

We are considered to be one of the most professional and leading Manufacturers / Exporters / Suppliers of all types of Calibrators in India in the field of Mechanical , Thermal , Electro-Technical , Optical etc. We have well experience and knowledge in manufacturing of Calibrators in all disciplines.

Product Description

Range : (0 - 40)kV (AC & DC)

EN-HV40 is a High-Voltage Probe that makes possible to measure DC , AC Voltage Upto - 40kV. This Probe is suitable not only in Laboratories , but also in Service Measurement , e. g. , Repairs of HV Multipliers , HV Sources of Copiers , Monitors , etc.

Technical Specifications

Model No.	EN-HV40
Range	(0 - 40)kV (AC & DC)
Attenuation Ratio	1kV : 1V
Input Impedance	> 250MΩ
Accuracy	DC - 1% , AC - 1.5% Of Reading

All product specifications are subject to change without prior notice.

Supply Includes

- ▶ AC/DC High Voltage Probe (40kV) - 01 No.
- ▶ Rishabh Make Digital Multimeter (3½ Digit) - 01 No.

All product specifications are subject to change without prior notice.
