

Introduction

We are considered to be one of the most professional and leading Manufacturers / Exporters / Suppliers of all types of Calibrators in India in the field of Mechanical , Thermal , Electro-Technical , Optical etc. We have well experience and knowledge in manufacturing of Calibrators in all disciplines.

Our Expertise

Our expertise includes Calibration Standards for the Parameters :- Temperature , Infrared Temperature , Humidity , Current , Voltage , Frequency , Inductance , Capacitance , Resistance , High Voltage , Turn Ratio , Energy , Power , Power Factor , Time , RPM , Gauss / Tesla , PH , Conductivity , TDS , ORP , Air Velocity , Pressure , Vacuum , Length , Mass , Volume , Vibration , Sound etc. & Industrial Automation , Cloud-IoT Platform with Devices , Fully Automatic Client movement Detection , Audio-Video Product Feature Description & Presentation (Without Any Manpower) etc.

Product Description

EN-OLEMC3P has been specifically designed to calibrate Energy Meters Online. Economical but being accurate for the purpose made it very popular amongst the laboratories and manufacturers.

Technical Specifications

Model No.	EN-OLEMC3P
Voltage	(0 - 300)V
Current	(0 - 6)A
Power Factor	0.1 Lag To Unity To 0.1 Lead
Watt	(0 - 1,800)W
Frequency	(45 - 60)Hz
Acuracy	± 0.15%

All product specifications are subject to change without prior notice.
